

1. It will not have an impact as the county already has a 95% vaccinated rate (95% with first dose). Montgomery County can be commended for already getting its residents to have one of the highest vaccination rates in the country.
2. It will be expensive for the county to pursue this with likely court battles to follow.
3. Our county's small businesses are struggling already and have been harmed so much these last 18 months. They have suffered enough. This will hurt them even more.
4. Business going out of the county will reduce county tax revenue.
5. The vaccine is not working for the Omicron strain.
